CAREER OBJECTIVE

To leverage my expertise and passion for software development in a dynamic environment, contributing innovative solutions and collaborating with a team to drive impactful projects forward. Committed to continuous learning and growth, I aim to advance my skills in cutting-edge technologies while delivering high-quality, scalable software solutions that exceed expectations and positively impact end-users.

EDUCATION

Kongu Engineering College (2021-2025)— Perundurai

- B.Tech Information Technology with a CGPA of 7.76

Sri Venkateswara Matric Higher Secondary School—Vandavasi

- Completed HSC with a Percentage of 90.64 - (2020-2021)

- Completed SSLC with a Percentage of 89.2 - (2018-2019)

PROJECTS

Multivendor Food Ordering Platform— Built using MERN stack

A Multivendor Food Ordering Platform using the MERN stack offers a seamless experience for users to explore diverse menus, place orders, and enables vendors to efficiently manage their offerings and orders, fostering a dynamic marketplace ecosystem

Real-Estate Management System — Built using MERN stack

The MERN stack Real Estate Management System optimizes property management with MongoDB, Express.js, React, and Node.js, providing seamless experiences for professionals and clients alike.

Page Replacement Algorithms Website— Built using HTML, CSS and JavaScript

The Page-Replacement Algorithm Website educates users on page-replacement algorithms in operating systems, using HTML, CSS, and JavaScript.

SKILLS

- C
- Java (Beginner)
- HTML
- CSS
- JavaScript
- React.js
- Node.js

AREAS OF INTEREST

- Web Development

- OS

PROJECT IDEA PRESENTED

Smart HealthCare System (Project) at Ideathon 22 event in KEC

INPLANT TRAINING

- Java Programming (Training Trains Software Technologies and Institute)

CERTIFICATION

- Completing a course in MERN Stack Fundamentals on Great Learning Academy
